DESCRIPTION OF PRODUCTS AND SERVICES

Monthly Parcel Layer Update: From December 1, 2006 to November 30, 2007

The Company will perform all the monthly parcel splits for the Client in Think GIS™. On a monthly basis, the Client will send a package that will contain a paper copy of the legal description of the split, current parcel number, new parcel number if available, and any other documentation (e.g. legal survey, deed) to perform the split. If a new parcel number has not been previously assigned, a new parcel number will be generated in Think GIS™. This new parcel number will be provided to the Client so that it may be compared to the database utilized by the Client. The splits will be created using the most recent parcel layer file that is in Client's Think GIS™ data archive. Once all the splits are finished, the Company will update the parcel layer on the Client's system via the UDX Network™. The backlogged parcel splits will be updated for the following cost:
